

State Authorization for Online Education

East Mississippi Community College (EMCC) provides distance education programs courses to students in all states under the authority of an agreement with the Mississippi Commission on College Accreditation ([MCCA](#)). East Mississippi Community College strives to provide a dynamic learning environment to ensure the achievement of students' goals by administering instruction, policies, and student support services. To continue this dynamic learning environment for out-of-state students, EMCC through its membership in the regional compact ([Southern Region Education Board – SREB](#)), has joined the National Council for State Authorization Reciprocity Agreement ([SARA](#)). SARA is an agreement among member states, districts, and territories that establish comparable national standards for interstate offering postsecondary distance education. SARA provides a reciprocity agreement that allows each member state the right to provide online education to residents of other member states with additional authorization required. All states are not currently members of SARA.

East Mississippi Community College (EMCC) students and prospective students who will not reside in Mississippi while enrolled in online programs or courses should be aware that many states mandate an authorization process for out-of-state institutions delivering online programs to its residents. States use such processes to safeguard postsecondary education, ensure the integrity of academic degrees, and ensure more excellent consumer protection for their students.

EMCC's participation in NC-SARA allows students from NC-SARA approved states to enroll in EMCC's online programs. Students can take online courses from institutions based in another state through this program. We encourage you to contact elarning@eastms.edu if the state you reside in is not listed as a NC-SARA state, as well as other updated information about the state and the courses that may be available to you.

Colleges or Universities in a SARA state only need their home state authorization to offer online education to any other SARA member state. Not every state has joined SARA, but most have. A current list of member states can be found [here](#).
